ALBERTA DIRECT TRADE

Alberta direct trade has been mostly quiet with no sales to speak of. US packer interest has been noted and light volumes of Western Canadian fed cattle have been marketed South. These cattle will be priced off the five-area average and will be delivered in a couple weeks. In September Canadian beef imports were steady with last year. Lower beef imports from the US were offset by larger imports from Australia and New Zealand. YTD Canadian beef imports are up 9% compared to last year.

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw no new trade to report and no bids to speak of. Packers are buying for a short processing week which could moderate demand for cash cattle. Significant trade will likely be delayed until the second half of this week. The All-fresh beef retail price for the month of October was reported at $9.44/lb, the lowest point in one year. From their highs this spring retail beef prices have dropped 6% but are still 1% higher than last year. Retail pork prices are 3% below last year.
