ALBERTA DIRECT TRADE

Alberta direct trade on Wednesday saw light trade develop with dressed sales ranging from $470.00-475.00/cwt delivered, $5.00-10.00/cwt lower than the previous week. Buying interest has been noted from two out of the three Western Canadian packers. US packer interest has been supportive, bids to go South are in the mid $290's/cwt FOB feedlot based in Southern AB. US bids are higher than last week's weighted average price and are at a premium over what local packers are offering. US packers are also wanting to formula price Canadian fed cattle. Cattle being marketed to the US will be picked up in a couple weeks.

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw light trade reported in Nebraska yesterday with live sales at $215.00/cwt, sales are positioned at the top end of last week's trading range. Today, live bids have been reported at $215.00/cwt in Kansas, business remained quiet and trade is likely to be delayed until tomorrow. Based on the latest World Supply and Demand report. USDA cut beef production for 2027 by 155 million pounds as lower placements for the second half of 2026 will slow fed cattle marketings for the first half of 2027. Beef production for 2027 is projected to be 1% lower than 2026. The annual price forecast for 2027 is $238.00/cwt on a live basis for fed cattle. Very optimistic given where live cattle contracts are currently trading.
