ALBERTA DIRECT TRADE

The Alberta direct trade on Monday remained untested. Canfax notes: "This week's showlist has been compiled with volumes steady with the previous week. Last week on a cash to cash basis, Alberta fed prices traded 3.50 back of the Nebraska market. Basis levels remain stronger than the five-year average. Given how strong basis have been, it is not surprising US packer interest in the Western Canadian fed market has been light."

U.S. TRADE (U.S. funds)

The U.S. cash cattle trade was quiet today with no bids on the table and asking prices undefined with the exception of a few lots in the south priced at \$115.00 live. Active trading is not expected to surface until Thursday at the earliest.
