ALBERTA DIRECT TRADE

Alberta direct trade on Tuesday saw no new trade to report. Asking prices have been reported anywhere from \$510.00-\$515.00/cwt delivered. Looking at the feed grain market, Western Canadian barley prices are trading at annual highs while US corn prices are hovering near annual lows. The barley/corn price spread is the widest it has been since late 2023. Western Canadian heifer carcass weights have been impressive. In two out of the past three weeks heifer carcass weights have been larger than steer weights which is uncommon. Quality grade percent continue to seasonally decline with fewer Prime and AAA carcasses.

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw light trade reported in Texas and Kansas yesterday with live sales reported at \$235.00/cwt, \$3.00-10.00/cwt higher than last week. Today, light trade is reported on the Fed Cattle Exchange, these cattle were located in Texas and Kansas with live sales reported from \$235.00-\$240.00/cwt. Business in the Northern feeding states remains quiet. Despite higher cash prices and beef cutout values closing \$1.00-\$4.00/cwt stronger, live cattle contracts did not see a big jump.
