ALBERTA DIRECT TRADE

Alberta direct trade on Wednesday saw light trade develop with dressed sales and bids reported from \$493.00-495.00/cwt delivered. Bids and sales are \$5.00-13.00/cwt higher than last week. Even though Alberta fed basis levels have weakened US packer interest on the Western Canadian fed market has been quiet. US packer interest in Eastern Canada has been a little bit of a different story through. This week the JBS plant in Souderton has been showing interest on Eastern Canadian fed cattle. From a supply perspective, fed cattle numbers should continue to tighten. There should be a hole developing between the fed calves and yearlings, but that window is narrowing.

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw light trade reported in Iowa and Nebraska yesterday with live sales started out at \$225.00/cwt, however by the end of the day sales were at \$228.00/cwt. Live sales in the North were steady to \$5.00/cwt higher than last week. Stronger cash prices yesterday are supporting the futures market. Business in the Southern feeding states has been quiet. Today, live sales in Texas and Kansas were reported at \$230.00/cwt, around \$6.00/cwt stronger than last week's weighted average. Dressed sales in Nebraska were noted at \$355.00/cwt, \$10.00-15.00/cwt higher. Stronger cash is supporting the cattle complex.
