## ALBERTA DIRECT TRADE

**Alberta direct trade** on Wednesday saw light trade develop with dressed sales reported at \$500.00/cwt delivered, \$5.00/cwt higher than bids/sales seen last week. Some cattle were sold on a formula basis. These cattle will be priced off the Canfax average price. Competition on the cash market remains somewhat limited but buying interest has been noted from all Western Canadian packers. Eastern Canadian buying interest has also been noted. By the time these cattle are freighted and factoring in a lower dressing percentage. Eastern Canadian bids are comparable with local bids.

## U.S. TRADE (U.S. FUNDS)

**The U.S. cash cattle trade** saw light trade reported in Iowa yesterday with dressed sales at \$360.50/cwt, steady with prices seen earlier in the week and steady with last week. Today the market tone is stronger, dressed bids have been reported up to \$365.00/cwt in Nebraska, while live bids are noted at \$228.00/cwt. USDA released its quarterly hogs and pigs report the other day. On December 1st totaled US hog inventories were reported at 75.5 million head, 0.8% higher than last year. Breeding inventories were just under 6 million head, 1% below last year. Gains in pigs saved per litter have offset declines in the breeding herd. Despite profitability in the pork sector expansion has been limited. A couple things weighing on expansion has been little to no growth in terms of packing capacity and government/state regulations such as proposition 12.
