ALBERTA DIRECT TRADE

Alberta direct trade this week have seen light trade develop with dressed sales ranging from \$573.00-580.00/cwt delivered, \$8.00-13.00/cwt higher than last week. Cattle that traded were scheduled anywhere from late May to mid June delivery depending on the packer. Stronger prices and stronger basis levels did encourage producers to market cattle. Yearling numbers are on the decline while more fed calves are hitting the market. A big flush of fed calves are not expected to hit the market, at least not in the near term. If a producer sells his fed calves 50lb to 70lb lighter than expected that can shift breakevens by \$25.00/cwt on a dressed basis. Probably more regional but this winter has been a little tougher than normal and many producers have indicated performance has been impacted and cattle could use extra days on feed.
