Current Five Day Average:	393.08	385.19

ALBERTA DIRECT TRADE

Alberta direct trade on Tuesday saw no new trade to report, but there is a good chance scattered trade will develop by this afternoon. At least one packer is short bought which should continue to support interest on the cash market. For the first quarter of this year Canadian beef imports are 28% larger than last year. From January to March beef imports from New Zealand and Australia are well above last year. These two countries account for nearly 40% of total beef imports.

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw light trade reported in Texas yesterday with live sales at \$255.00/cwt, \$1.00-2.00/cwt lower than the previous week. A few cattle traded in Iowa at \$402.00/cwt dressed, a couple dollars weaker. Today, live sales in Nebraska were reported at \$256.00/cwt, while dressed sales were reported at \$405.00/cwt, steady with the previous week. Late last week the US Department of Agriculture reported that a New World Screwworm case was detected in a young sheep in Mexico 50 kilometer away from the US boarder. Over the past month feeder cattle contracts have declined \$30.00/cwt. Lean hog contracts have also worked lower, the near-by lean hog contract is trading at the lowest point since December.
