ALBERTA DIRECT TRADE

Alberta direct trade last week saw light trade develop with weighted average steer and heifer price closing the week around 296.00/cwt, steady to a little stronger than the previous week. Cash sales were reported to both US and Western Canadian packers. Last week cows traded $1.00-2.00/cwt higher through commercial auction facilities. The Western Canadian cow market has held up much better than the Eastern Canadian market. Eastern Canadian cow prices are at the lowest point since the winter of 2025. There is a chance cows from Eastern Canada are being shipped West and being put on feed.

Steers	Live FOB feedlot (last week)	303.50 FOB the feedlot	Rail – Del (last week)	495.00-500.00
Heifers	Live FOB feedlot (last week)	303.50 FOB the feedlot	Rail – Del (last week)	490.00-500.00

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw no new trade to report, and significant trade will likely be delayed until the second half of this week. Asking prices are poorly defined but are expected top start out around $230.00/cwt on a live basis. Four state showlist volumes have been reported smaller with the largest week over week declines in fed supplies noted in the Southern US. Mexican feeder cattle imports have steadily increased over the past month. It is estimated by the end of this year around 150,000 head of Mexican feeder cattle will cross into the US, increasing market ready supplies into the second half of 2027.
