U.S. TRADE (U.S. funds)

The U.S. cash cattle trade for last week, reported by the USDA Mandatory Price Report, saw live sales range from \$100.00-\$105.00 with steers averaging \$104.31 and heifers \$104.58 which is fully steady to the previous week on average. On the rail steers and heifers sold from \$160.00-\$166.00 dressed with steers averaging \$162.24 down \$1.38 from the previous week, while heifers averaged \$162.63 down \$1.07. Today the market was fairly quiet as both sides took inventory and new show lists were distributed. This week's offering is reported to be smaller in the south and larger in the north, but steady in overall volume. Just a couple of token bids were noted today in the south at \$102.00 live but no sales were reported. Such early interest on the packers half could indicate that they are starting the week out short bought. Asking prices are currently undefined.
