ALBERTA DIRECT TRADE

Alberta direct trade is untested with little business expected to develop today. This week's offering is reported by Canfax as smaller than last week but 17% larger than last year at this time. Asking prices are sitting around the higher \$260's.

U.S. TRADE (U.S. funds)

The U.S. cash cattle trade remains at a standstill with no new trade expected to develop before Wednesday at the earliest. No bids have surfaced but asking prices in the south are sitting at \$125.00 live while the north remains unestablished. Agcenter.com reports: "One message from last week's COF report was the number of cattle on feed 150 days and longer shows we are not in worse shape than a year ago and carcass weights remain below last year. The slaughter at the current level also is not cleaning up the front end supplies and has delayed the point at which cattle owners can gain some market leverage."
