ALBERTA DIRECT TRADE

Alberta direct trade remains untested with little business expected before Wednesday at the earliest. Canfax notes that this week's offering is steady to last week with asking prices around \$265.00 delivered on a dressed basis. Canfax reports: "Fed cattle supplies are not overly current and long pick up dates could add additional pressure to sell cattle this week. With many yearlings coming in off of grass 30-60 days earlier than normal we probably won't see a hole between fed calves and yearlings this year.

U.S. TRADE (U.S. funds)

The U.S. cash cattle trade is seeing a few deals in parts of Nebraska this afternoon at \$126.00 live and \$200.00 dressed which is stronger than last week's trade but not enough sold to establish a market trend for the week. Bids in the south have started to surface at \$124.00 live, steady to last week but not attracting any selling interest at this time. Asking prices are reported at \$126.00 plus live in the south and \$201.00-\$202.00 dressed in the north. Active trade is not expected to develop before Wednesday at the earliest.
