ALBERTA DIRECT TRADE

Alberta direct trade remains untested with little business expect to develop today. Canfax reports that his week's offering is larger than last week in volume with asking prices sitting around \$305.00 plus delivered on a dressed basis. Canfax notes: "Canfax released its October 1st cattle on feed report last Friday. Feedlot placements in September were larger than last year, even with larger September placements third quarter placements volumes were lower than last year. October 1st cattle on feed inventories are below last year and but larger than the five-year average."

U.S. TRADE (U.S. funds)

The U.S. cash cattle trade saw a couple of deals yesterday in Iowa at \$147.00 live, steady to last week but not enough to establish a market. Asking prices in the south are reported as higher this week at \$147.00-\$148.00 live, however the north is remains undefined. This week's offering is steady to last week in volume with little trade expected to surface before Wednesday at the earliest.
