U.S. TRADE (U.S. funds)

The U.S. cash cattle trade last week was strong with business in the south up \$3.00 cwt from \$146.00-\$148.00 live, majority at \$148.00. In the north some live trade was reported from \$150.00-\$153.00 while dressed deals ranged from \$234.0-\$238.00 dressed, mainly \$236.00 up \$3.00-\$4.00 cwt. Actual average prices reported by the USDA Mandatory Price Report saw live steers average \$150.07 up \$3.08 from the previous week while heifers averaged \$149.86 up \$2.91. On the rail steers averaged \$235.28 up \$3.68 with heifers averaging \$235.52 up \$3.97. Today was a typical Monday with show list distribution the main focus. Large processing volumes last week, along with stronger boxed beef prices and strong cattle futures should provide support to this week's trade. No bids are on the table at this time and asking prices are undefined, but will be higher than last week. This week's offering is reported as smaller in volume in all feeding states.
