Current Five Day Average:	256.02	224.32

ALBERTA DIRECT TRADE

Alberta direct trade remains at a standstill but some business could develop this afternoon. Canfax reports: "For the week ending October 15th western Canadian steer carcass weights averaged just under 980lbs which is a new all-time record high. Feeding conditions have been almost ideal this summer and fall leading to impressive daily gains. From a seasonal perspective, carcass weights usually peak in late October. Feedlot inventories are not overly current, and there could be additional pressure to market heavy weight cattle."
