ALBERTA DIRECT TRADE

Alberta direct trade this week seen light develop with dressed sales reported at \$525.00/cwt delivered, \$5.00-15.00/cwt higher than last week. Cattle that traded were being scheduled for the second half of September delivery. The fed cattle market has been rather impressive gaining \$13.00/cwt over the past month. Not only have prices advanced but basis levels have also strengthened. Increased processing rates have supported buying interest on the cash market. Not only that but cow volumes through commercial auction facilities have been slow to increase. This will keep additional hours towards the youthful processing as well.
