## U.S. BOXED BEEF CUT-OUT VALUES (U.S. FUNDS)

	Choice 600-900	Select 600-900
Cutout Values (noon estimate):	359.36	344.88
Change (from yesterday's close):	-1.68	-3.15
Current Five Day Average:	361.93	349.49

## ALBERTA DIRECT TRADE

**Alberta direct trade** on Tuesday saw no new trade to report. Asking prices have been reported at \$500.00/cwt delivered. Western Canadian steer carcass weights increased 15lbs to average 1,017lbs, a new record high. The industry seems to be front loaded with cattle. Cattle on feed data is also backing that up. Alberta/Saskatchewan cattle on feed inventories for 120 days or longer are running above year ago levels. In the near-term bigger processing rates will be critical to help get carcass weights back under control.

## U.S. TRADE (U.S. FUNDS)

**The U.S. cash cattle trade** saw no new trade reported yesterday. Significant trade is likely to be delayed until Thursday or Friday. With increased processing rates and more production coming down the line beef cutout values have struggled. Choice cutout values are holding around \$360.00/cwt the lowest point since late July.
