ALBERTA DIRECT TRADE

Alberta direct trade on Monday saw no new trade to report. This week's showlist has been compiled with volumes steady with the previous week. There have been rumblings one packer is bidding lower money compared to last week but selling interest is non-existent. For the Canadian market, beef exports continue to be a positive story for the industry. In July beef exports were 1% larger than last year. Beef shipments to China were record large. YTD Canadian beef exports up 4% compared to last year. Impressive considering YTD beef production is steady with last year.

Steers	Live	FOB feedlot (last week)	N/T	Rail - Del (last week)	495.00
Heifers	Live	FOB feedlot (last week)	N/T	Rail - Del (last week)	495.00

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw no new trade to report, and business will likely hold off until Thursday or Friday. Asking prices are poorly defined but are expected to start out around \$230.00/cwt on a live basis. Four state showlist volumes have been reported smaller with the largest declines in fed supplies in the Southern feedinstates. Packer margins are positive and wholesale beef prices are holding up well considering larger processing rates. Currently the only two primals trading above last year are ribs and briskets. The rib market has been very impressive trading within a couple dollars of their recent highs set back in December 2024.
