ALBERTA DIRECT TRADE

Alberta direct trade this week have seen light trade develop with dressed sales ranging from \$490.00-500.00/cwt, steady to \$8.00/cwt higher than the previous week. Cattle that traded were scheduled for early November delivery. After trending lower for the past couple of months the fed market is starting to show signs of stability. Looking at the feed grain markets, from their recent lows in late-August barley prices have rallied \$15.00/tonne. From a seasonal perspective it would not be surprising if fall price lows were in our rearview mirror.

U.S. TRADE (U.S. FUNDS)

The U.S. cash cattle trade saw light trade reported in Iowa and Nebraska yesterday with dressed sales ranging from \$348.00-355.00/cwt, fully steady with the previous week. Live sales in Nebraska were at \$223.00/cwt and sales in Iowa were at \$220.00/cwt. Sales in Nebraska were steady while sales in Iowa were a couple dollars lower. Business in the Southern feeding states has been quiet today, live bids of \$220.00/cwt were being passed in both Texas and Kansas. There have been numerous reports of increased immigration enforcements targeting processing facilities in Kansas, which has weighted on the futures market. Workers have been afraid to show up to work which has been reflective in reduced processing rates with daily estimates running below 100,000 head.
