ALBERTA DIRECT TRADE

Alberta direct trade on Wednesday saw light trade develop with dressed sales at \$500.00/cwt delivered, sales are positioned at the top end of last week's trading range. Buying interest has been noted from all Western Canadian packers but competition on the cash market remains limited. US packer interest has been supportive and light volumes of Western Canadian fed cattle were marketed South. These cattle will be priced off the five-area average. and will be shipped out in a couple weeks. Depending on freight, grading, and the US market, it is estimated sales to the US will work back to a slight premium over local deals.

Other than light trade in Texas business has been quiet in all other feeding states. Significant trade will likely hold off for at least another day. Based off the latest World Supply and Demand report beef production for 2027 was revised 160 million pounds lower at 24.7 billion pounds. Beef production for 2027 is projected to be 0.5% lower than 2026. Beef imports for 2027 were revised higher compared to their September estimates.
