## Comments for the week ending August 15, 2019

329 fed steers and heifers sold through auction markets this week which is fully steady to last week, but 100 more than this time last year. Fed steers ranged from \$127.37-\$148.05 averaging \$139.93 up \$0.43 from last week and \$1.21 above year ago prices. Heifers traded from \$118.41-\$140.55 averaging \$132.95 down \$4.16 from last week and \$2.48 stronger than year ago prices. Auction markets reported trade as steady for most of this reporting period, but by Wednesday trade was \$2.00-\$3.00 cwt lower on a light offering and ended the week down \$2.00 cwt from last week.

Ontario railgrade prices were reported the previous Friday at \$240.00 dressed for both steers and heifers with delivery within the next week or two. By Monday, one packer had pulled their bid but prices remained at the \$240.00 price. By Wednesday the market was steady at \$240.00, but still with one packer not buying. By Thursday, all packers were bidding with sales from \$235.00-\$240.00 dressed. This week's average price is up \$1.00 on average, however purchases were for more current delivery. This week's price is up \$9.00 cwt from this time last year. Prices seasonally decline this time of year, however the fire at the Tyson plant in Kansas Friday night has put serious downward pressure on the U.S. cattle trade. Whether or not that will have a huge effect on Ontario prices, and if so how much of an impact, are the biggest questions moving forward.

2,021 fed/cull cows sold through auction markets this week down 21 from last week and 125 more than last year at this time. Cows traded from \$61.79-\$91.51 averaging \$76.06 down \$1.13 from last week and \$14.88 stronger than year ago prices. Auction markets reported trade early in this reporting period as steady to stronger. By Tuesday trade was barely steady to slightly easier, with one market noting prices up \$5.00 cwt on a good quality offering. By Wednesday the market was holding steady, but by Thursday trade was barely steady.

3,624 stocker and feeder cattle were on offer at Ontario auction markets this week, up 1,351 head from last week and 1,115 more than last year at this time. Auction markets reported calves as trading steady. Heavier cattle were noted as slightly higher to start, but as the week progressed the heavier cattle were steady to barely steady. By week's end, replacement cattle were noted as steady on the good quality, with plainer and fleshier types selling barely steady to lower. Grass cattle were reported at a premium. Actual average prices this week saw steers 400-500 lbs down \$9.03 from last week's weighted average, 500-600 lbs were down \$5.65, 600-700 lbs down \$8.54, 700-800 lbs down \$0.87, 800-900 lbs down \$2.37, 900-1000 lbs up \$2.71 and steers 1000 lbs and over averaged \$2.21 stronger than last week. Heifers weighing 400-500 lbs were down \$1.15 from last week on average, 500-600 lbs down \$4.62, 600-700 lbs down \$5.33, 700-800 lbs down \$9.25, 800-900 lbs up \$1.11 and heifers 900 lbs and over averaged \$0.06 higher than last week on average.

The Quebec electronic market this week ranged from \$232.25-\$236.00 dressed, down \$4.32 from the previous week on average.

Alberta direct trade this week was too light to establish a price report. Canfax noted bids in the low to mid 230's delivered, on a dressed basis on Wednesday, but no trade occurred. On Thursday Canfax reported bids at \$234.00 delivered, but again, no sales. Canfax notes: "Thursday bids were stronger than Wednesday but are 10.00-12.00 lower than last week. Packers are wanting to buy cattle at sharply lower money while producers seem willing to carry cattle into next week. Packers were indicating it is going to take longer to lift cattle. Yesterday there were reports some cattle would not be picked up until mid-September."

The US cash cattle trade for the week ending August 9<sup>th</sup>, was easier with trade scattered through the week in the north, however the southern trade was delayed until late Friday. In the south business ranged from \$108.00-\$111.00, mostly \$110.00 down \$1.00 on average. In the north trade ranged from \$178.00-\$185.00 with prices declining as the week progressed. Trade in the north averaged \$181.00-\$182.00, down \$2.00 on average. The USDA Mandatory Price Report for the week saw live sales range from \$108.00-\$117.00, with steers averaging \$112.37 down \$1.45, while heifers averaged \$111.43 down \$0.82. On the rail prices for the week ranged from \$178.00-\$185.00 dressed, with steers averaging \$182.23 down \$2.07 and heifers \$180.96 down \$2.20.

This week the market was under pressure following a fire at the Tyson processing plant in Kansas on Friday night, which will be closed indefinitely as the damage is assessed and eventually repaired. In the meantime alternative plants will have to be sourced to process the already purchased cattle as well as part of the Kansas offering moving forward. The Tyson-Kansas plant processes 6-7% of the U.S. volumes or around 6,000 head per week. Cattle futures were down the limit in response to the news on Monday resulting in expanded limits on Tuesday of 450 for the live cattle and 675 for the feeders. On Tuesday, live cattle futures were mostly down the new limit while feeder cattle were close to limit lower, with one contract actually down the expanded limit. Wednesday, live cattle futures were just a touch lower on the nearby contracts, with contracts from December onward improving by 60-197 points. The feeder cattle on Wednesday saw the August contract up the expanded limit with the remainder of contracts also sharply higher. On the cash market trade in the south Wednesday was light to moderate with sales noted at \$105.00 live, down \$5.00 from last week. Sales online were also at \$105.00 live. In the north a couple of deals were noted at \$169.00-\$170.00 dressed, down at \$11.00-\$13.00 from last week, but not enough to establish a market for the week. Thursday, a light trade in the north was reported from \$170.00-\$172.00 dressed, mostly \$172.00 down \$10.00 from last week, with a few sales in Iowa at \$107.00-\$108.00 live, down \$5.00-\$7.00 cwt from last week. Overall, so far this week prices are down \$5.00-\$7.00 on a live basis and \$10.00-\$12.00 on a dressed basis. Some clean up trade could develop this afternoon, but the bulk of trade has been completed.

US boxed beef prices increased considerably due to the loss of production from the Kansas plant shut down. USDA boxed beef prices since Monday have increased by \$12.88 for select and \$17.50 on the choice, by Thursday close, which should motivate packers to ramp up production wherever possible.

Agcenter.com reports: TYSON GARDEN CITY PLANT UPDATE- "Tyson's Fresh Meats Division CEO Steve Stouffer met with media at the Garden City plant yesterday to inform the public and suppliers that Tyson is working as quickly as possible to restore major damage to its beef processing facility. He said it will be months rather than weeks before the plants is fully operational. While the structural damage is not a large area, the fire impacted major critical systems, including electrical that will be more difficult to repair. He said it appeared the fire was started by a welding torch. Tyson said the structural work can begin immediately but more time is required for the electrical repairs. Stouffer declined to offer a firm timeline and said Tyson is still getting more information on the damage and repairs."
