

The Advance Payments Program (APP) is a federal program under the Agriculture Marketing Programs Act (AMPA), which provides agriculture producers with easy access to low-interest cash advances for livestock and crops.

Under the program, beef producers can access up to \$1,000,000 per program year in advances based on the value of their cattle. The Government of Canada covers the interest on the first \$250,000\* advanced to the producer, and advances are repaid once the cattle are sold.

Beef Farmers of Ontario (BFO) administers the interest-free provision of the APP for the feeder co-operatives across the province. This provision is permitted because the Ontario Ministry of Agriculture, Food & Rural Affairs guarantees the Ontario Feeder Cattle Loan Guarantee Program.

To be eligible for the interest-free provision, members will have to complete an APP application form, pay respective fee and meet the APP criteria.

### INTEREST-FREE PROVISION

Eligible producers are entitled to receive up to \$250,000\* interest-free under the APP once during the production period for all eligible products (livestock and crops).

### ELIGIBLE PRODUCT

Feeder cattle.

### ELIGIBLE PRODUCER

Feeder co-operative member.

### ADVANCE RATE

50 per cent of the expected market value, as determined by Agriculture and Agri-Food Canada (AAFC).

### PRODUCTION PERIOD

- The production period is 24 months starting April 1<sup>st</sup> of each year (ie. April 1, 2026 to March 31, 2028.).
- Applications must be received within 12 months after the start of each production year.
- Feeder co-operative loan(s) must still be paid out within 12 months, or later if an extension is approved by the co-operative.
- Each production period will overlap 12 months. Therefore, a producer may have two \$250,000\* interest-free provisions during this period.

### SECURITY

As per the Ontario Feeder Cattle Loan Guarantee Program

## How to Apply

Complete an application form and submit with a cheque, payable to your co-operative for \$175.00 plus HST where applicable. This fee will cover the administration costs incurred by your co-operative and BFO to administer the program.

- Eligible interest-free portion of the loan advanced is based on 50 per cent of the expected market value as determined by AAFC. Only a portion of your loan may be eligible for the interest-free provision.
- Interest-free period begins when the loan is advanced and will cease at the end of the production period, i.e. March 31, 2028 or whenever the loan is paid within the 12 month policy, whichever occurs first.

## How it Works

### EXAMPLE 1

Buy 50 head at \$3,500/hd, loan is \$175,000. If the advance rate is \$183.50/cwt, and expected market weight is 1,500 lb, the portion of loan eligible for the interest-free provision would be \$137,625 or \$2,752.50 per head (50 head X 15 cwt X \$183.50).

### Repayment

Member sells 30 head. Therefore, from the proceeds of the sale, \$82,575 (30 head X \$2,752.50 per head) would be applied against the interest-free portion, and the remainder of the proceeds would be applied against the regular interest-bearing loan.

### EXAMPLE 2

Buy 100 head at \$3,500/hd, loan is \$350,000. If the advance rate is \$183.50/cwt and you expect to market them at 1,600 lb, interest-free portion would be the maximum of \$250,000 versus \$293,600 (100 head X 16 cwt X \$183.50).

### \* TEMPORARY INCREASE - INTEREST-FREE LIMIT

On April 1, 2026, the Minister of Agriculture and Agri-Food announced a temporary increase to the interest-free limit for advances under the Advance Payments Program (APP). The interest-free limit was increased from \$100,000 to \$250,000 in 2024 and will be maintained at that level for the 2026 program year. This is the portion of an advance on which the Government of Canada pays the interest on behalf of producers. Beef Farmers of Ontario continue to seek a permanent increase in the interest-free limit under the APP of at least \$250,000.

**Applications are available from your

## **Important Details**

1. Applications can only be made at the same time as your loan is advanced. You must be a member of a local feeder co-operative.
2. A new application and fee will be required every time you request the interest-free provision.
3. At the end of the 24 month production period (March 31<sup>st</sup>), the interest on any eligible loan(s) not paid off by that time will become the responsibility of the member as of April 1<sup>st</sup>.
4. Maximum interest that will be rebated by AAFC is prime rate less  $\frac{3}{4}$  per cent.
5. Related producers: producers are considered related if they do not deal with each other at arm's length. Without proof to the contrary, producers are presumed to be related if they are married or cohabiting, or directly or indirectly controlling another producer. A shareholder and a corporation are also defined as being related. The definition of "related producers" as per AMPA is available from your co-operative's administrator.
6. Interest is credited directly to the interest-free portion of your feeder co-operative loan on a monthly basis.
