**Peterborough Cattlemen's – Victoria Beef Farmers Association****Annual All Vaccinated Fall Calf Sale****VACINATION REQUIREMENTS****Fall Sales****November 6, 2019 – Certified Calf Sales****November 20, 2019 – Calves and Yearlings****IMPORTANT NOTICE TO BUYERS AND SELLERS -**

Consigning – to Wayne Telford, or any other sale committee member by September 30<sup>th</sup>. Calves will not be accepted without completed application form, proof of vaccine purchase, signed info-link cards, and a CCIA bar coded ear tag and all calves must meet the following:

**Entry Requirements:**

**Castration** – All male entries must be castrated by October 1st, 2019 and properly healed by sale date. After September 1st, 2019 only surgical or knife to remove the testicle is eligible. It is strongly suggested that producers adopt the practice of castrating calves before three months of age. Please check all steers while processing in the fall.

**Dehorned** – It is **preferred** that all calves be properly dehorned by no later than October 1st, 2019 and properly healed by sale date. It is strongly recommended that calves be dehorned at birth or shortly thereafter by method of paste or electric dehorner.

**Vaccinations** – Killed Vaccination: all calves must be vaccinated in the neck area by September 30th, 2019 and have their booster shot no later than October 16th, 2019 with a 4-way vaccine (IBR, P13, BVD, BRSV) plus HS. It is very important that when using a killed vaccine, the booster shot be given 2-4 weeks after the 1st shot. Consult your herd veterinarian for proper vaccination schedule:

**Live Vaccination:** all calves must be vaccinated in the neck area by October 16th, 2019 with one shot of a live 5-way vaccine plus a shot of HS. (EG. Ultrabec 7)

**Other Vaccinations:** a Pasteur Ella Haemolytica vaccine (e.g. Responses or One-shot) must also be given to all calves, done with killed or live vaccine.

In summary, 3 injections must be given to calves done with live vaccine (Two if using Pyramid 5 and prepones and HS). A photocopy of receipt of vaccine purchase is required along with signed info-link cards.

**Ear Tags** – All sale entries must be tagged with CCIA radio frequency identification (RFID tags) before arrival at the sale barn. Tags will serve to promote quality calves and as a trace-back mechanism. The complete digit barcode number must be recorded on the consignment form-lowest to highest.

**Minimum Consignment Number** – The minimum entry number is three (3). To improve flow of sale only 1 single per 10 head (buyer's request).

**900 Head** – Up to 900 head only will be accepted. Consign your calves early by contacting any sale committee members.

**Commission** - \$15.00 plus \$2.00 yardage fee.

**No Dealer Cattle** will be accepted.

Weaning Date(if calves):	Other Comments:

I understand that my consignment meets the rules and regulations of this sale. If one or more of my animals fail to meet those requirements as discovered after delivery to the sale barn, I further understand that the sale committee has the right to reject my entire consignment from selling in the sale. If it is discovered after my animals are sold that they prove to be not castrated (as verified by a third-party veterinarian), I will pay the cost of having a veterinarian properly castrate the animal(s). We as a committee no longer guarantee dehorning.
